

AUDIT VERDICT: CLEAN / SAFE

SECURE: No threat indicators or malicious characteristics were detected. This site resolves correctly and uses valid encryption.

RISK SCORE

5 / 100

ANALYZED TARGET URL

https://www.google.com

Risk Factors Detected

CLEAN

No threat indicators or anomalous risk factors were triggered during this security audit.

Technical Metrics & Parameters

| Metric Parameter        | Observation / Value        |
|-------------------------|----------------------------|
| Target URL Length       | 22 characters              |
| HTTPS Encryption Status | Yes (Encrypted)            |
| Top-Level Domain (TLD)  | .com                       |
| Subdomain Depth Levels  | 1 levels (Normal)          |
| Phishing Keyword Hits   | 0 detected                 |
| SSL Certificate Status  | Valid Certificate          |
| SSL Expiration Period   | 2027-03-31 (280 days left) |
| Registered Domain Age   | 10240 days (Established)   |
| Domain Registrar Name   | MarkMonitor Inc.           |

Actionable Security Mitigation Plan

- Exercise Standard Caution** — Although this scan did not trigger indicators, always verify domains before inputting secure credentials.
- Inspect Email headers** — If the URL originated from an email claiming to be from an official entity, inspect the sender domain details.
- Keep Security Software Active** — Ensure browser built-in anti-phishing protection is enabled and active in your settings.
